

**Morning Survey**

Please tick any of the following boxes which may be areas of communication in which you would like to develop your skills:

- How to transition the conversation from 'usual discussions' into topics of concern (e.g. QoL, conservative management, news of deterioration, short prognosis, etc)
- Patients' and Families' questions about prognosis
- Questions about the legalities of giving and/or withholding treatments, or other perceived 'wrongs'
- Responding to anger / fear / denial
- Promoting Patients' autonomy when their Family / Carer do not agree with your recommendations, or, the Patient's decision
- How to progress important conversations when the Patient doesn't appear to want to engage
- Helping Patients understand the complex questions they need to ask themselves in order to achieve Advance Care Planning which honours their values and beliefs
- Explaining the deterioration / dying process (where relevant)
- Bereavement Follow-Up

**Please nominate your discipline**
