Referring Doctor Prof Brown A/Prof Katz A/Prof Badve Dr Lane
 A/Prof Kelly Dr Shanmugasundaram Dr Pettit A/Prof Mangos

Signature Source of referral: hospital clinic / private rooms

Date:

Information for patients:

- A blood pressure cuff will be applied to your arm (similar to the cuff used at the doctors).
- This will be connected to a small machine attached to a belt around your waist or a strap, which you can wear diagonally across your body from your shoulder.
- The cuff will inflate every 30 minutes during the 24-hour period.
- You should continue doing all your normal activities for this period e.g. work, driving, exercise and take your usual medications.
- If you are unable to keep your appointment. Please call ASAP as our waiting lists are long.
 N.B. The answering machine is available after hours 9113-2621
